

# AiRTX Power Supply

**POWER SUPPLY** - the heart of it all - supplies power for all of the ionizing equipment  
Connecting Ionizing Bar, Ionizing Air Knife, Ionizing Gun and Ionizing Nozzles to Power Supply

▲ **Power Supply 7500V  
(4 Port Unit)**  
Model 50000 (115V) or  
Model 50000-1 (230V)  
**Lighted Power Indicator**

▲ **Power Supply 6000V  
(2 Port Unit)**  
Model 50002 (115V) or  
Model 50002-1 (230V)  
**Lighted Power Indicator**

## The AiRTX Power Supply Advantage

- Plug-in appliance hook-up
- Choice of 2 Port Unit or 4 Port Unit Power Supply
- Power surge protector
- Specially designed to prevent heat build-up, providing long life and reliability
- Power operating light
- Compact
- Both UL and CE Listed

## AiRTX Static Elimination Products- Eliminates STATIC UP TO 20 FEET

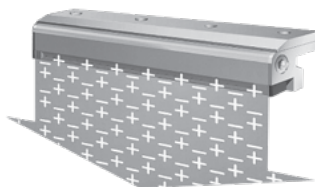

▲ **Ionizing Bar with  
Operating Power Light**

### Model 55000\* Series

#### Static Neutralization Bar

Model 55000 Series Ionizing Bars feature a unique inductively coupled design that produces powerful static neutralization, while remaining shockproof. It is ideal for sheet, webs and shallow three-dimensional parts. The Bar can be positioned up to 6" from the target. It is supplied with 8' of cable. Body is anodized aluminum, with Stainless Steel emitter pins in plastic molding. Inductive operated Power Light indicates On/Off operation. Available lengths of 3" to 112" (76-2845 mm).

\*Last 2 digits of part number indicates effective length.

▲ **Ionizing Air Knife  
Long Range Static Elimination**

### Model 55500\* Series

#### Ionizing Air Knife

With a Model 55000 Series Ionizing Bar attached to an AiRTX Air Knife, you can deliver static-neutralizing ions to a target at distances up to 20 ft. (6 m). It's ideal for web/sheet stock, conveyORIZED product, extrusions, or arrangement in halo shape to wrap your product in ionized air. Quiet, maintenance-free and a miser with compressed air, the knife is available in all standard knife lengths or (optionally) in custom lengths.

▲ **Ionizing Air Gun  
Rugged Strength**

### Model 50003

#### Ionizing Air Gun

The Ionizing Air Gun is perfect for spot cleaning needs, coupling one of our Ionizing Nozzles with a hand-held Air Gun. Weighing only 11 oz (300 g), it's light enough to be used for extended periods.

The Air Gun consumes only 12 cfm at 80 psi, 74 dBA @ 80 psi (Power Cable included).

▲ **Single Point  
Ionizing Nozzle  
Continuous Operation**

### Model 50006

#### Ionizing Nozzles

Ionizing Nozzles deliver neutralized air to a target from long range. In addition, they blow away contaminants. Series installation allows them to be linked on a single cable. Used on conveyor applications or where stationary production cleaning and static neutralization is done.

Must indicate the needed length of cord.

**AiRTX Shockless Static Elimination Systems can be used as productivity tools in most industries to solve static problems.**
