

AiRTX Ionizing Air Gun AND SINGLE POINT IONIZERS

Minimal Compressed Air, Neutralize Static, Adjustable Air Flow — MORE POWER!

◀ Model 50003 Ionizing Air Gun

The Ionizing Air Gun is perfect for spot cleaning needs, coupling one of our Ionizing Nozzles with a hand-held Air Gun. Weighing only 11 oz. (300 g.), it's light enough to be used for extended periods. Will not pull debris from the surrounding air and blow it on the finished product. The air gun consumes only 12 cfm @ 80 psi.

▲ Ionizing Gun Model 50003

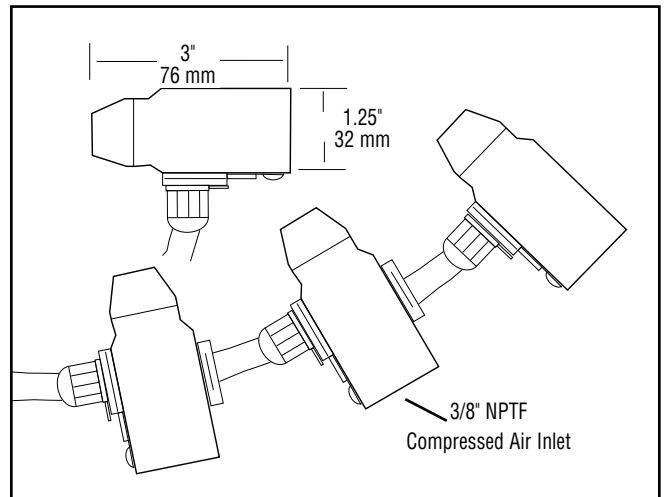

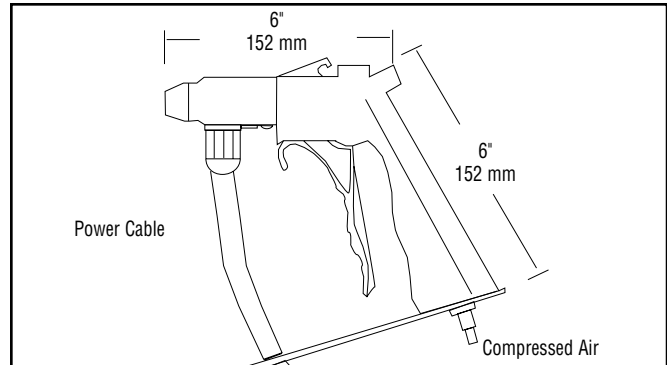

◀ Single Point Ionizer Model 50006

Ionizing Nozzles deliver static-neutralizing air to a target from long range. In addition, they blow away contaminants. Series installation allows them to be linked on a single cable.

▲ Single Point Ionizer Model 50006

When ordering AiRTX Nozzles in a series, indicate cable length between nozzles, as well as length of first nozzle to the Power Supply.

AiRTX Ionizing Gun and Nozzle Advantages

- 6000V of Power means 20% more ions than other supplier
- Neutralize static, blows away dirt
- Minimal compressed air
- Adjustable air flow
- Maintenance free – quiet
- Rugged – reliable for industrial use

◀ Power Supply Model 50002 (115V) 2 connection hook-up

Use Them For

- Around guide rods and rollers on any machinery handling web or sheet paper and plastic
- Electronics assembly areas or servicing of boards and components
- Heat-set ink dryers, paper and textile drying equipment
- Sheet feeders, unwinders, stackers, separators
- Cutters and slitters for trim removal
- Photofinishing operations
- Pre-paint prep areas
- Lenses, signs, etc.
- Packaging materials
- Pneumatic conveyors
- Injection molded parts
